

## **Special Notice Regarding Potential Declaration of Emergency**

During emergencies, Broward County may be under a Declaration of Emergency issued by the Broward County Mayor. In such situations the County offices may be closed.

In accordance with the Broward County Procurement Code, Section 21.30.D.2 "All Bids Unopened. If all bids are not opened at the appropriate time and date of the bid opening, for any reason other than failure of the vendors to present their bids or cause their bid to be presented at the appropriate time, the bid opening may occur at the next regularly scheduled bid opening date. This automatic extension of the bid opening time may occur without notice to bidders if there has been no other change in requirements or specifications other than the delay of opening of the bid. Any vendor submitting a bid after the delayed original time and date, but before the next regularly scheduled time and date for bid opening, shall have the bid accepted, opened, and fully considered for award."
